The Fly Dresser's Dresser

Dimensions: 1540mm (w) x 620mm (d) x 1400mm (h). Desk height 800mm.

Based in North Yorkshire, Hilditch Wood Design is a small company and we pride ourselves on the quality & craftsmanship of the products we provide.

The Fly Dresser's Dresser is a premium product, originally designed to meet the needs of the fly dresser, but is equally suitable as a practical piece of furniture to complement any home. This oak dresser is handmade to order, using quality materials, and has a lacquered finish.

Although oak is our primary material, the dresser can be ordered in other species of wood and, if required, the original design can be modified to suit customers' individual needs. Additional items of matching furniture can also be commissioned, and nationwide delivery can be arranged.

Individually Tailored

Each dresser is unique and is made to customer specifications

Alternative Configurations

The Fly Tying Station

The Fly Tying station is a modular unit with each one being built to suit individual customer requirements and budgets. The basic unit can be left or right handed with additional drawers, tool rails and bobbin holders etc added as required.

The station can be made in either oak or pine, features exposed dovetails on the drawers and has a durable lacquered finish. If required, legs can also be included to allow the station to be a standalone unit.

The 4x4 Storage Cabinet

Each 4x4 storage cabinet is built and designed to fit the customer's individual vehicle. The cabinet can be designed to accommodate either shooting and / or fishing equipment and accessories. The cabinet is made in solid European oak with a durable lacquered finish.

Complimentary Accessories

Tool station
